

PLATFORMS CAL SOUTH USES:

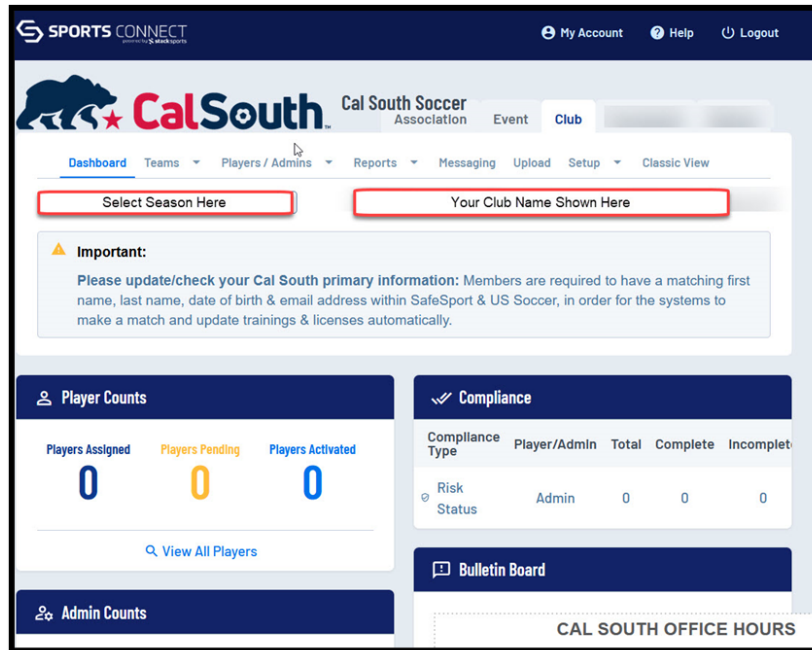

FOR REGISTRATIONS

Stacks Sports

This is where we keep all registrations. Within Stacks there are two sides.

1 Association side – [Click here](#)

All clubs will have to use the association side. This is where we all create our State profile.

This is where all member information funnels into and ultimately where compliance verifications are stored.

- Livescan risk management
- License verification
- SafeSport Verification
- Concussion & Sudden Cardiac Arrest Verification
- Team activation rules for card printing

You can register players into the association side directly using the upload feature. [Click here for steps.](#)

You are able to manually add admin registrations for teams and create teams.

Clubs take in their fees as they usually do in person or using a portal.

Then set Cal Souths fee portion aside to pay upon receiving invoice at the end of the month.

Invoice is sent via square where the club can pay online.

PLATFORMS CAL SOUTH USES:

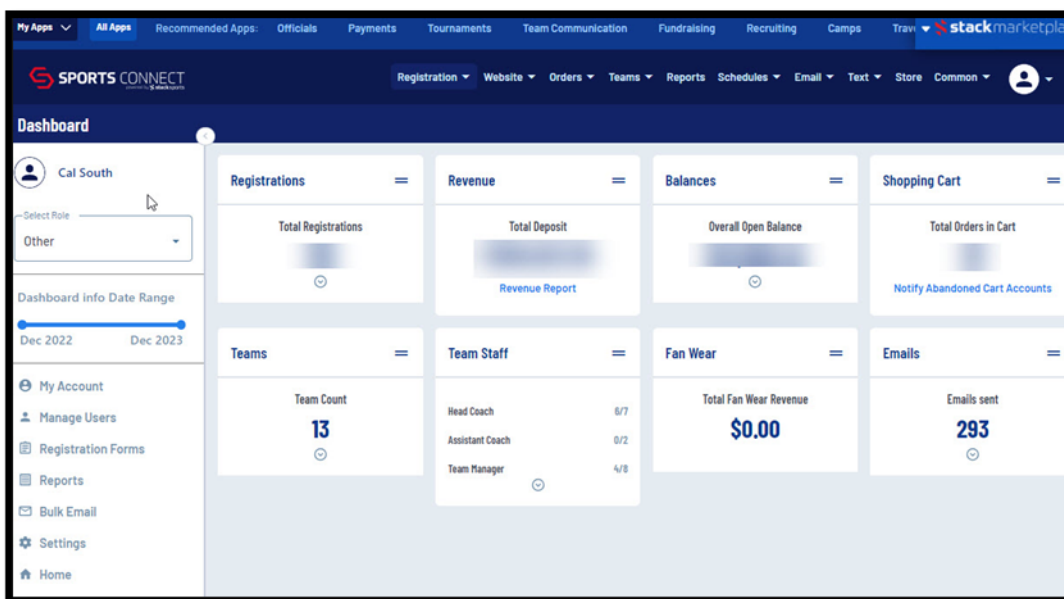

FOR REGISTRATIONS

Stacks Sports

This is where we keep all registrations. Within Stacks there are two sides.

1 Club Connect side – [Click here for videos](#)

It is not required for clubs to use this club connect side.

This is a product for clubs to use if they want to take online registrations.

Online registrations can be done on computers, or mobile devices by the parent and admins themselves.

The player fee would automatically be paid here and routed to Cal South automatically.

Clubs have the option to use online registration and add their club fees to it as well. It is not required.

Therefore, your option here would be parent registers their player and pays both Cal South fee and your club fees all at once.

Or parent registers player and only pays Cal South fees to get the player into the system. Then you as a club either collect your fees in person, by mail, or any other portal you are currently using.

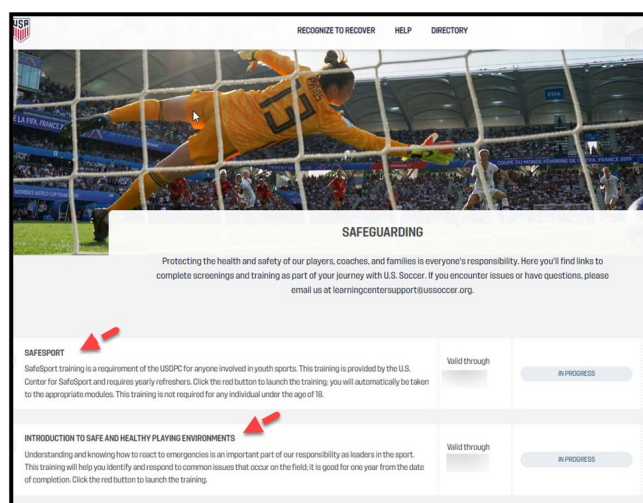

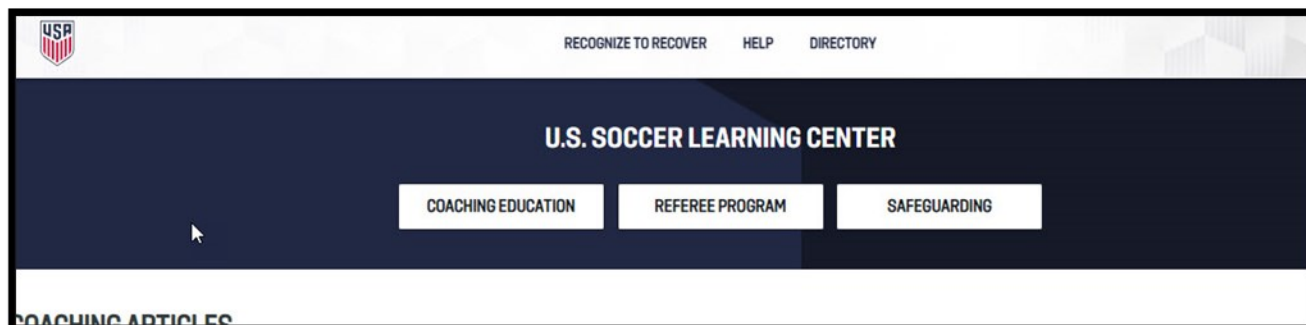

Member information automatically gets pushed to the association side daily.

Benefit of using this side is you don't have to worry about setting aside finances to pay Cal South at the end of the month for each player.

PLATFORMS CAL SOUTH USES:

FOR TRAININGS & LICENSES

Us Soccer Learning Center (LC) - [Click here](#)

All Team Parents, Managers, Coaches, Referees & Adult Athletes will need to use the LC.

This is where will all create our National profile.

We are able to take our required trainings and coaches can take their licenses here.

*All data then automatically gets updated into their State Cal South profile.

*Full Name, Date of Birth, email all need to be exactly the same in all platforms for automatic updated to make a match and verify in the systems.
