TIPS & TRICKS

A screenshot of the "Registration Questions" interface in SportsConnect. The title "Registration Questions" is at the top, followed by the instruction "Add standard questions and create any custom questions that you want to ask during registration." Below this are three question entries. The first two are "Insurance Company:" and "Insurance Policy Holder:", both marked as "Required". The third is "Question *" with a red underline and "Required field" text. To the right of the third question is a dropdown menu with options: "Check Box", "Date Selection", "File Upload", "Waiver", and "Uniform Selection". The "Uniform Selection" option is circled in red. At the bottom left of the form is a blue button labeled "Add Question" and a blue button labeled "support".

#1: ADDING "UNIFORM SELECTION" TO A REGISTRATION FORM

Our SportsConnect Tips & Tricks section is meant to provide helpful information to our affiliates who are currently using Club Connect for their registration needs. Each edition showcases a different function and provide you with important links so you can use these functions for yourself.

Our first tip is on how to configure your players' "Uniform Selection" question on a registration form, and then how to run a Uniform Report afterward. To learn about adding a "Uniform Selection" question to your form, [click here](#). When you are done, then [click here](#) to learn how to run a Uniform Report.
